

HomePure zayn

clean air and beyond

The most powerful
combination of technology –
HPP+ Electrostatic, Ultraviolet,
and Ultra-Plasma Ion Filters

- Removes **99.8%** of airborne particulates and allergens
- Sleek 5-stage purification

Exclusively available from | QNET

KEY FEATURES

HomePure zayn

- Purifies and sterilises indoor air by getting rid of **99.8%** of airborne particulates, allergens, viruses, bacteria, fungi, bad odours, and VOCs
- The powerful 5-stage purification system to clean the air you breathe

Stage 1: Prefilter	Removes large particles such as dust, pet dander, and pollen
Stage 2: Ultra-Plasma Ion Filter	Chemically dissolves and eliminates over 99% of viruses, bacteria, and germs in the air; converts contaminants into safe H ₂ O
Stage 3: HPP* Filter*	Eliminates airborne particulate particles as small as 0.1 microns, as well as microscopic organisms, and viruses, bacteria, fungi, moulds, and dust mites; removes toxic vapours and other harmful gasses such as VOCs, formaldehyde, and carbon monoxide
Stage 4: Activated Carbon Filter	Eliminates unpleasant odours, gasses, and vapours
Stage 5: UV Light	Eliminates germs, bacteria, and viruses that have not been dissolved by the ultra-plasma ion filter; UV light is safe for the human body and has excellent antibacterial capabilities

* HPP* Filter must be replaced every 6 months

- User-friendly design — **Built-in Air Quality Sensor, Night Mode, Child Lock, and HPP* Filter Change Indicator**
- Harmonises and energises clean air with the Amezcua Card
- Covers up to 36 sqm of indoor space
- Minimalist, stylish and lightweight design
- Allergy-friendly product, tested and certified by European Centre for Allergy Research Foundation (**ECARF**)
