

HomePure viva

WATER THAT
CHANGES
WITH YOU

CUSTOMISED WATER FOR YOUR DAILY NEEDS

Make the change to a Viva Water
Ioniser to get more out of your water.

[#MakeTheChangeWithViva](#)

Make your home a HomePure home

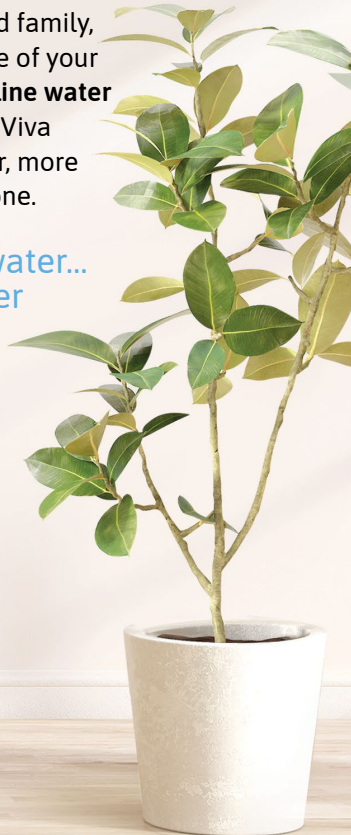

MAKE THE CHANGE WITH VIVA TODAY...

Because life is
simply better
with Viva.

It's time to rethink what it means to create
and maintain a happy and healthy home life.

From tastier meals that impress your friends and family,
to better oral hygiene, to extending the shelf-life of your
fresh food, to drinking **the world's healthiest alkaline water**
every day... when you make the change to a Viva
Water Ioniser, you'll notice a healthier, happier, more
harmonious home life in more ways than one.

Viva Water is much more than just water..
It's a whole new way to use water
around your HomePure Home.

TAP INTO THE HEALTH BENEFITS OF YOUR WATER

GOOD HEALTH ON TAP

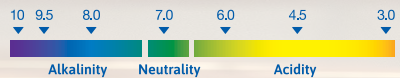

- ✓ Boost Immunity
- ✓ Support Gastrointestinal Function
- ✓ Better Sleep
- ✓ Enhanced Energy
- ✓ Faster and More Effective Rehydration

Being able to drink **hydrogen-rich, alkaline water** every day at home is one of the many ways **HomePure Viva changes your tap water to suit your needs**. But how does it do this? By using electrolysis and advanced ionising processes to change the pH levels of your water, which in turn alters the Hydrogen levels and ORP (Oxidation-Reduction Potential).

1. All About Alkaline Water

What is it?

Alkaline water means its pH is at least 8; Regular drinking water usually has a pH level of about 7.

What's so good about it?

Five pre-programmed alkaline settings to choose from:

- **pH 8.5**
Enhanced drinking water for beginners
- **pH 9**
Enhanced daily drinking water
- **pH 9.5**
Therapeutic daily drinking for gastrointestinal support
- **pH 9.8-10**
For the perfect brew of tea or coffee
- **pH 10.5-11.3**
A tasty ingredient that enhances organic flavours

2. NEGATIVE ORP and its POSITIVE Antioxidant Effects

What is it?

Oxidation-Reduction Potential (ORP) is a measurement to see how pro or anti-oxidising a substance is; **a negative ORP means strong antioxidant properties.**

What's so good about it?

- Protects the body's cells from oxidative damage
- Naturally slows the visible and invisible signs of ageing
- Promotes health at a cellular level

3. HIGH in Hydrogen, HIGH in Benefits

What is it?

Hydrogen water has a high level of dissolved hydrogen (H₂) molecules in it.

What's so good about it?

Drinking hydrogen-rich water has many documented medical and biological benefits.*

Relieves Gastrointestinal Symptoms	<ul style="list-style-type: none">• Relieves gastrointestinal symptoms such as hyperacid, indigestion, chronic diarrhoea, odd fermentation in the intestine.
Decreases Oxidative Stress	<ul style="list-style-type: none">• Decreases risk of various lifestyle-related diseases.• Improves sleep quality.
Improves Metabolic Syndrome	<ul style="list-style-type: none">• Reduces medical risk factors associated with Metabolic Syndrome, such as dyslipidemia, hyperglycemia, obesity, and diabetes.• Helps to reduce cholesterol and glucose levels.• Helps to control fat and body weight.
A Good Source of Antioxidants	<ul style="list-style-type: none">• Promotes cellular health.• Anti-ageing effects in scavenging oxygen-free radicals.
Provides Protection from Inflammation	<ul style="list-style-type: none">• Anti-inflammatory and anti-apoptotic properties, both of which can ease oxidative stress in the body.
Boosts Energy & Athletic Performance	<ul style="list-style-type: none">• Small molecules can be quickly penetrated into body tissue, allowing for fast absorption to rehydrate the body more effectively.• Boosts athletic performance and energy after exercise.• Improves blood circulation.
Detox Your Body	<ul style="list-style-type: none">• Improves urinary frequency and volume.• Promotes healthy bowel movements and can reduce issues with constipation.

* Disclaimer:

- Please ensure correct usage of this product and read the instructions thoroughly.
- Please consult your healthcare professional if you experience any adverse effects or pain after drinking alkaline water. If you experience any discomfort or change in your health condition, please consult your physician or pharmacist. If you are under the care of a physician, please consult with them before drinking alkaline water.

VERSATILE VIVA WATER

HomePure Viva utilises ultrafiltration (UF) methods, however it is much more than a water filter.

HomePure Viva is an advanced water ioniser that uses hydrogen-generating technology to literally change the molecular properties of tap water. This allows Viva to provide bespoke, pH-balanced benefits far beyond the capabilities of a regular water filter.

ADVANCED

Water ioniser changes properties of water

CONVENIENT

No chemical boost agents

11 SMART MODES FOR 11 TYPES OF WATER

ACIDIC 1

VIVA FOOD PREP WATER

pH 6.5 | ORP: 450 mV

- Reduces oil, bacteria, and insecticides from vegetables, fruits, and raw meats without chemical agents.

Note: Before consuming raw food washed with this setting, rinse with water from PURIFIED MODE.

ACIDIC 2

VIVA ORAL HYGIENE WATER

pH 6 | ORP: 500 mV

- Helps to prevent the growth of bacteria inside the mouth and protect against mineral loss.

ACIDIC 3

VIVA BEAUTY WATER

pH 5.5 | ORP: 600 mV

- Maintains healthy skin and balances your skin's pH level.
- Removes oil without chemical agents.
- Relieves the aggravation caused by dry, itchy and chapped skin, and symptoms from eczema.

ACIDIC 4

VIVA WASHING WATER

pH 5 | ORP: 720 mV

- No need for detergents to clean chopping boards, dish towels, and other kitchen utensils.
- Helps reduce germs, bacteria, and mould when washing hands.

ACIDIC 5

VIVA DISINFECTANT WATER

pH 2.7-3.5 | ORP: 900 mV

- Disinfect beyond simple washing and cleaning by using water that has a higher acidity (lower pH level) and a higher positive Oxidation-Reduction Potential (ORP).
- Reduces the amount of chemicals and cleaning products needed during basic household cleaning.

Disclaimer:

- pH measurements may vary according to the water quality (water hardness, salt, particles, etc.) in each location, and the measurement device.

PURIFIED		<p>VIVA PURIFIED WATER pH 7.5 ORP: 350 mV</p> <ul style="list-style-type: none"> • Reduces the chlorine, chemicals, bacteria, and other contaminants found in tap water. • Perfect for drinking with medication. • Ideal for babies' drinking water and mixing with formula.
ALKALINE 1		<p>VIVA BEGINNER WATER pH 8.5 ORP: -20 mV</p> <ul style="list-style-type: none"> • A lower pH level and negative Oxidation-Reduction Potential (ORP) helps to facilitate the body's adjustment to drinking alkaline water. • Good for those just starting to drink alkaline water (about 2-4 weeks) and those with a sensitive stomach.
ALKALINE 2		<p>VIVA DAILY ALKALINE WATER pH 9 ORP: -120 mV H₂: 55 ppb</p> <ul style="list-style-type: none"> • Energises, hydrates, slows down oxidation, and helps the body maintain an optimal pH balance.
ALKALINE 3		<p>VIVA THERAPEUTIC WATER* pH 9.5 ORP: -320 mV H₂: 350 ppb</p> <ul style="list-style-type: none"> • Therapeutic water that helps to relieve gastrointestinal symptoms, such as hyperacid, indigestion, chronic diarrhoea, and odd fermentation in the intestine. <p><i>Note: Not intended to be used when taking medicine; use Viva Purified Water when consuming medication.</i></p>
ALKALINE 4		<p>VIVA BREW WATER pH 9.8-10 ORP: -380 mV H₂: 420 ppb</p> <ul style="list-style-type: none"> • Uses when brewing tea or coffee to help enrich flavour and improve the taste of organic ingredients. • Helps to bring out the natural flavour of ingredients. <p><i>Note: Do not use with coffee maker machines, as the higher alkalinity may cause a build-up in the machine.</i></p>
ALKALINE 5		<p>VIVA COOKING WATER pH 10.5-11.3 ORP: -620 mV H₂: 700 ppb</p> <ul style="list-style-type: none"> • Use for cooking to enrich flavour and improve the taste of ingredients, thus reducing the need for additional seasoning.

* Disclaimer:

- Based on research conducted on the medical device ioniser; results may vary from one consumer to another. If irritation occurs, discontinue consumption of Alkaline water and seek medical attention if necessary.
- Variations in Hydrogen and ORP values are a by-product of the ioniser's process when generating Alkaline water. ORP is a very sensitive value and vary according to several factors. Hydrogen values significantly depend on the water source and flow rate.

THE TECHNOLOGY BEHIND THE WATER

- ✓ The most advanced at-home water ionising technology in the market.
- ✓ Easy and convenient to use.
- ✓ Sleek counter-top design for the modern home.
- ✓ Interactive colour touchscreen and multilingual audio.

- 9-PLATE PREMIUM WATER IONISER
- PLATINUM-COATED TITANIUM ELECTRODES
- AUTOMATIC SELF-CLEANING SYSTEM
- SMART FILTER TECHNOLOGY

- 1 FLEXIBLE OUTLET PIPE**
- 2 LARGE TFT (THIN-FILM TRANSISTOR) FULL-COLOUR LCD TOUCH SCREEN**
- 3 AUDIO USAGE GUIDE IN 8 LANGUAGES**
English, Arabic, French, Spanish, Russian, Hindi, Chinese, Vietnamese.
- 4 5-STAGE FILTRATION IN 2 ENCAPSULATED CARTRIDGES**

5-STAGE FILTRATION IN 2 ENCAPSULATED CARTRIDGES

Optimum filter lifespan
of up to
3,600 litres

Removes
99.9999%
of bacteria and viruses*
**viruses that are
bigger than 0.1 micron*

Reduces
microorganisms that are
600%
smaller than the width
of a human hair

CARTRIDGE 1

STEP 1
Sediment filter

Removes rust and sediments larger than 5 microns.

STEP 2
High-performance activated
carbon block filter

Reduces chlorine, turbidity, VOCs (Volatile Organic Compounds), TTHMs (Trihalomethanes) and other chemicals; reduces bad taste and odour.

CARTRIDGE 2

STEP 3
Granular activated carbon powder

Reduces bad taste, chlorine, odour and other chemicals.

STEP 4
Antibacterial carbon balls

Reduces the growth of bacteria and other microorganisms inside the filter cartridge.

STEP 5
Ultrafiltration (UF) filter

Removes bacteria and microorganisms (0.01-0.1 micron).

BETTER THAN BOTTLED WATER!

The sustainable HomePure Viva is like having bottled mineral water on tap, but better.

Access the highest quality water at home

Say NO to single-use plastics!

Reduce your carbon footprint

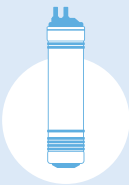

Reduce the use of cleaning chemicals

CERTIFICATIONS AND ENDORSEMENTS

- Korea Conformity Laboratory, South Korea for water purification performance
- Ente Certificazione Macchine (ECM), Italy for CE compliance

FIVE KEY USAGE GUIDELINES

1. Follow the User Guide
2. Keep it Cool (4°C-35°C)
3. Use with Optimal Water Pressure (max. 1-4 bars)
4. Use Treated Metropolitan Water
5. Change the Filter Cartridges Regularly

For low quality water, use with HomePure Prefilter to protect your HomePure Filter Cartridges.

Use only with water supply that contains less than 200-500 ppm of Total Dissolved Solids (TDS), ideally 200 ppm.

(Recommended water hardness (calcium hardness - CaCO_3) level in normal working conditions is around 50 - 120 ppm.)

Don't use with salt water (not more than 0.2 ppt salt).

Do not use water from HomePure Viva in fish tanks/bowls or aquariums.

Note: Please note that failure to follow the usage guidelines stated above and in the user manual voids the product warranty.
